- Figma, Photoshop

WORK EXPERIENCE

UI Developer | Lighthouse Info system Pvt Ltd

September 2022 - Present

- Contributed to the development of a complex ERP application, working closely with cross-functional teams including backend developers, product managers, and QA to build scalable solutions.
- Developed and maintained dynamic UI components using the Angular framework, enhancing usability and user experience across modules.
- Led a team of developers in creating mobile-responsive and cross-browser-compatible websites, improving accessibility and performance across devices.
- Collaborated directly with clients to design and develop custom websites using WordPress, Bootstrap, HTML, and CSS, ensuring alignment with brand identity and user expectations.
- Actively participated in code reviews, sprint planning, and feature brainstorming, promoting a collaborative and agile development environment.

Web Designer | Tricky Sys IT Solutions

August 2021 - August 2022

- Designed wireframes, interactive prototypes, and high-fidelity visual designs for both mobile and web-based products, ensuring a seamless user experience across platforms.
- Conducted usability testing sessions, gathered user feedback, and iterated on design solutions to improve functionality, user satisfaction, and overall product usability.
- Collaborated closely with developers to translate design concepts into fully functional interfaces, ensuring pixel-perfect implementation and adherence to accessibility standards (WCAG).
